

iPad Apps in Pediatric Therapy

Discover all the best apps for organization, behavior, sensory, fine motor, visual perception and handwriting!

About this Course

Course Description

This webinar reviews, explains, and demonstrates apps to enhance your therapy sessions and can be used as practice in the classroom or at home.

Many are FREE!

The apps discussed are related to organizational skills for students and therapists, behaviors and rewards, sensory, fine motor, and visual perception.

Handwriting skills on the iPad are also reviewed, including apps to teach handwriting and how to use the iPad as a modification for students that have difficulty with handwriting.

This webinar is chock full of resources!
